INDEX

Acetylcholine, 11, 63, 179, 189, 197
——, central nervous system and, 179
——, neuromuscular transmission and, 189
——, synaptic transmission and, 197
Activity, cholinesterase, 235
——, convulsive, 105
——, cortical, 125, 409
——, electrical, in decerebrate rigidity, 89
——, ——, effects of fluoroacetate on, 105
——, ——, in frog spinal cord, 223
——, spinal, brain stem facilitation of, 331
Action potential. See Potential, action
——, reflex, after anesthesia, 349
Adrenaline, inhibitory action of, 167
——, synaptic action of, 167
Anemia, cortical, effects of, 409
Anesthesia, effects of, on monosynaptic pathway, 349
Anoxia, effects of, on monosynaptic pathway, 349
Anticholinesterase, 1, 179, 235, 429
——, central nervous system and, 179
——, block produced by, 429
ARROWOOD, J. G. See SARNOFF, S. J., 205
Asphyxia, brain, blood pressure changes in, 361
——, EEG after, 361
——, effects of, on monosynaptic pathway, 349
Axoplasm, viscosity changes in, 211

BACH, L. M. N. and MAGOUN, H. W. The vestibular nuclei as an excitatory mechanism for the cord, 331
BARKER, S. H. and GELLHORN, E. Influence of suppressor areas on afferent impulses, 133
Block, nerve, 383, 395
——, nerve conduction, 429
Blood pressure, effect of stimulation of cingular gyrus on, 371
BRONK, D. W. See LARRABEE, M. G., 139
BROOKS, C. McC. and ECCLES, J. C. Electrical investigation of the monosynaptic pathway through the spinal cord, 251
——, and ——. A study of the effects of anaesthesia and asphyxia on the mono-synaptic pathway through the spinal cord, 349
BULLOCK, T. H., GRUNDFEST, H., NACHMANSOHN, D. and ROTHENBERG, M. A. Effect of di-isopropyl fluorphosphate (DFP) on action potential and cholinesterase of nerve. II, 63
——, ——, ——, and ——. Generality of the role of acetylcholine in nerve and muscle condition, 11

CASE, T. J. See FUNDERBURK, W. H., 179
Cat, action potentials of spinal cord, 339
——, adrenergic synaptic inhibition, 167
——, brain asphyxiation, 361
——, decerebrate rigidity, 89, 331
——, effect of parasympathetic drugs, 179
——, effect of sodium fluoroacetate, 105
——, facilitation of synaptic excitation, 139
——, influence of suppressor areas on afferent impulses, 133
——, monosynaptic pathway, 251, 349
——, reflex development, 415
——, retina, 295, 303
——, vestibular nuclei, 331
CHADWICK, L. E. and HILL, D. L. Inhibition of cholinesterase by di-isopropyl fluorophosphate, physostigmine and hexaethyl tetraphosphate in the roach, 235
CHANG, H.-T., RUCH, T. C. and WARD, A. A., JR. Topographical representation of muscles in motor cortex of monkeys, 39
Cholinesterase, 1, 63, 155, 179, 189, 197, 235, 429
Cingular gyrus, stimulation of, 371
Color sensitivity. See Sensitivity, color
Conduction block, 323, 429
——, muscle, 11, 383, 395
——, nerve, 11, 383, 395
——, synaptic, cockroach, 1
Coordination, motor, cerebral regulation of, 275
Cortex, cerebral, depression of activity in, 409
——, ——, stimulation of, 409
——, motor, muscles in, 39
——, sensorimotor, transection of, 275
Crayfish, giant nerve fiber system, 23

Decerebrate rigidity. See Rigidity, decerebrate
Di-isopropyl fluorphosphate (DFP), 11, 63, 155, 235, 429
——, inhibition of cholinesterase by, 235, 429
Dog, cingular gyrus, stimulation of, 371
——, reflex development, 415
Drugs, effect of, on eyelid reflex, 415
——, ——, on root potentials, 323
——, parasympathetic, effect of, on conditioned response, 179

ECCLES, J. C. Acetylcholine and synaptic transmission in the spinal cord, 197

——. See Brooks, C. McC., 251, 349
Electrocorticogram, 125, 133
Electroencephalogram after brain asphyxiation, 361
—— of spinal cord, frog, 223
Endplate potential. See Potential, endplate
Eserine, effect of, on nerve, 429
Excitation, synaptic, 139

Facilitation of synaptic excitation, 139
—— of movement, 331
Fillenz, M. and Hanafin, M. Acetylcholine and neuro-muscular transmission, 189
Flaig, J. V. Viscosity changes in axoplasm under stimulation, 211
Fluoroacetate, convulsive activity induced by, 106
Frontal lobe. See Lobe, frontal
Funderburk, W. H. and Case, T. J. Effect of parasympathetic drugs on the conditioned response, 179

Gellhorn, E. Effect of afferent impulses on cortical suppressor areas, 125
——. See Barker, S. H., 133
Gerard, R. W. See Kuffler, S. W., 383
Gernandt, B. Colour sensitivity, contrast and polarity of the retinal elements, 303
——, and Granit, R. Single fibre analysis of inhibition and the polarity of the retinal elements, 295
Granit, R. See Gernandt, B., 295
Grundfest, H., Nachmansohn, D. and Rothenberg, M. A. Effect of diisopropyl fluorphosphate (DFP) on action potential and cholinesterase of nerve. III, 155
——. See Bullock, T. H., 11, 63
Gyrus cinguli. See Cingular gyrus

Hanafin, M. See Fillenz, M., 189
Hill, D. L. See Chadwick, L. E., 235
Hyperexcitability, anoxial, 349
Hypothalamus, frontal projections on, 309

Impulses, afferent, effect on cortical activity, 125
——, ——, influence of suppressor areas on, 133
Inhibition, adrenergic synaptic, 167
——, retinal, 295
Innervation of muscle fibers, 383, 395

Marrazzi, R. N. See Marrizzi, A. S., 167
Monkey, decerebrate rigidity, 89
——, frontal lobe projection, 309
——, hypothalamus, 309
——, muscles in motor cortex, 39
——, prefrontal lobe removal, 57
——, regulation of motor coordination, 275
——, vagal stimulation, 315
Moruzzi, G. Tectal and bulbopontine eyelid reflexes and mechanism of the sleeping attitude of the acute thalamic pigeon, 415
Motoneurones, eyelid, 415
Muscle, acetylcholine in, 11
——, innervation of, 383, 395
——, in motor cortex, 39
——, semitendinosus, 79, 383, 395
——, skeletal, motor system to, 383, 395

Nachmansohn, D. See Bullock, T. H., 11, 63, and Grundfest, H., 155
Nerve, afferent vagus, 315
——, anticholinesterase activity in, 429
——, cholinesterase of, 11, 63, 155
——, DFP and, 11, 63, 155, 429
——, peripheral, injury potentials along, 114
——, sciatic, and DFP, 11, 63, 155, 429
——, stimulation of, 339
——, superior cervical, and DFP, 63, 155
—— fibers, 1, 23, 113

—— ——, injury potentials and, 113
Nervous system, central, crustacean, 323
——, ——, effect of drugs on, 179
Neuromuscular transmission, 79, 189
—— ——, acetylcholine and, 189
Nuclei, Vestibular, 331

Polarity, retinal, 295, 303
Potassium, effects of, 79
Potential, action, DFP and, 11, 63, 155
——, ——, spinal cord, 339
——, endplate, potassium and, 79
——, injury, 113, 121
——, root, 323
——, small-fiber junctional, 383, 395

Rabbit, cerebral cortex, 409
RANSMEIER, R. E. See KUFFLER, S. W., 395
Reflexes, order of emergence of, in spinal animal, 415
——, tectal and bulbopontine eyelid, 415
Respiration, effect of stimulation of cingular gyrus on, 371
——, effect of vagal stimulation on, 315
Response, conditioned, effect of drugs on 179
——, delayed, 57
——, electrical, of synapses, 251
——, respiratory, 315
Retina, polarity of, 295, 303
REXED, B. Injury potentials along peripheral nerves in relation to histological structure, 113
——, See LANGENSKIÖLD, A., 121
